

Atlantic

Twin

Atlantic Twin

The **decoflame®** Atlantic Twin bioethanol fireplace is an exclusive wall-mounted fireplace executed in glass and stainless steel.

With its two adjacent burners the Twin is the largest model in the Atlantic Series which makes it well suited for more spacious settings. The tempered glass front ensures an efficient convection which provides an even heat distribution in the room. The flame intensity of both burners is adjustable.

Specifications

Materials:
Steel, stainless steel and tempered glass.

Finish:
Powder-coated.

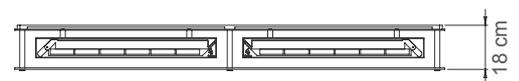

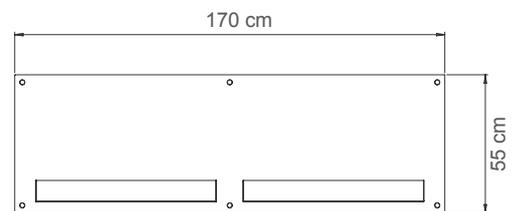

Heat Efficiency:
Max. 7.2 kW

Burner volume:
8.6 litres of bioethanol. Use only bioethanol for **decoflame®** fireplaces.
