Montreal

Made to measure

Decoflame offers a unique range of custom made fireplaces to suite individual needs and desires. **decoflame®** Montreal is a minimalistic fireplace with a discrete appearance which amplifies the impression of the flames.

decoflame® Montreal can be ordered as one-sided or two-sided fireplace with optional 10mm tempered glass shielding on either one or both sides. The burner length range from 400mm to 800mm with fully adjustable flame intensity.

The Montreal fireplace is designed to be built directly into any non-flammable wall with a minimum thickness of 20 cm.
